

## Summer School Themes 2021

for ages 2 - 10

\$275 per week

\$250 per week for 4 weeks or more

### Every Friday in summer is an Aqua Adventure!

Camp will be a SOAK zone this day! This year's water extravaganzas will be the best ever as we explore and enjoy all things water! Expect colossal sized sprinklers shaped like unicorns, bounce house water slides, water games, and so much more. Bring your bathing suit and a towel as we promise a wet and wild day of fun!

#### Week 1: Art Adventurers (June 14-18)

This is the week creativity comes alive! Leave the pretty dresses and sport coats at home, and let's get messy! We'll explore art that explodes with color, paint with our feet, make masterpiece self-portraits, and more. Our art camp includes more variety than you can imagine. We will enjoy processed-based projects where the kids explore unusual methods and mediums, as well as projects where they'll learn how to follow a step by step plan (with plenty of individuality of course!). They'll create tons of projects to take home, as well as large collaborative projects, developing teamwork and communication skills.

#### Week 2: Ooey Gooey Science Fun (June 21-25)

Your child is sure to have an explosive time as we explore things that pop, hop and fly! Leave the fancy clothes at home; this camp will explore hands-on science projects and experiments, including Obleck, slime, erupting volcanoes, and all the exciting chemical reactions your budding mad scientist could possibly want! This interactive camp is sure to delight as well as teach. From artistic science techniques to hands on activities, this week is not to be missed!

#### Week 3: Where the Wild Things Are (June 28 -July 2)

"There should be a place where only the things you want to happen, happen" and now there is! Activities abound in this fun week full of storytelling, creative drama, art, foil crowns and fun. Your children will spend the week expanding their imaginations, and they'll learn to channel their creativity to create their own fantasy lands to sail to over a year and through a day. They'll learn how to tell stories in different mediums, such as visually, audibly, and through music and feeling. Let the wild rumpus begin!

#### Week 4: Under the Sea (July 6-9) (4-day week)

Swim on over for this magical journey into the deep. Deep fun that is! Campers can expect tons of water play, engaging art, underwater stories, splashy science, exciting crafts, and so much more! It'll be a cool week of fun while learning about marine ecosystems, sea animals, plants, tides, and fish. You won't want to miss this deep blue adventure that will last the whole week long.

#### Week 5: CIRCUS EXTRAVAGANZA! (JULY 12-16)

Ladies and gentlemen, boys and girls, welcome to a week you'll never forget. Come one, come all, and join us under the big top as we explore our imaginations and wildest dreams. Run away to the circus with us and explore art, imaginative play, animals, and more. With music, face painting, and games, this is sure to be the greatest show on earth!

**Week 6: FULL STEED CHEDD! INVENTORS WORKSHOP (JULY 19-23)**

Childhood curiosity, experimentation, and imagination can develop one's play instinct, build on math concepts, squash fears, boost intelligence, develop empathy, and so much more. In this science-based week, children will tinker and play, have the opportunity to explore and have tons of fun, all the while exercising their imagination! They'll cover basics in coding, build robots, and work together to find creative solutions to fun problems. This week, boxes are for making space ships, not for thinking!

**Week 7: Pirate Week! Join Jake and the Never Land Pirates (July 26-30)**

Ahoy thar, matey! With pirate names and treasure maps, this week be burstin' with fun times for all! We be learnin' pirate shanties, makin' pirate crafts, and playin' tons of pirate games! We'll be learnin' about real life pirates and how they lived on the open sea. From buildin' ships, to evadin' Captain Hook, that scurvy dog, to adventures sure to excite every laddie and lass, this week is not to be missed!

**Week 8: Galileo's Adventure (August 1-6)**

Join us on a trip beyond our world and explore the solar system with us! Learn about asteroids, stars, and planets as we make our journey to find out if the moon really is made of cheese and to count Saturn's moons. We'll examine constellations, why there's night and day, and what is truly at the center of it all. Ready? 3... 2... 1... Blast off!

**Week 9: HARRY POTTER AND SUMMER OF FUN (AUGUST 9-13)**

Join us as we immerse a new class in the fantastical world of Harry Potter! Make your own wand, some drool slime to rival Hagrid's dog, Fluffy, a Monster Book of Monsters, and a variety of potions. We'll make magical treats and try butterbeer. We'll have fun activities like Quidditch, house games and scavenger hunts, boosting our teamwork skills and creative adventures. And of course, what Harry Potter week would be complete without a visit from a real magician?
